

DELTA AMBULANCE
POSITION DESCRIPTION

Paramedic 2 (CCTT Paramedic)

7.12.04

Level Designation: (Performance requirements for employees assigned to this level)

The Paramedic 2 performs a variety of functions associated with the delivery of ALS and BLS pre-hospital emergency care and ambulance transfers including the provision of care during interfacility transports as the primary provider of care under the Maine EMS Paramedic Interfacility Transport Program or as the lead provider or a member of the multi-disciplinary patient care team should the patient's condition warrant this team approach to patient care. The Critical Care Transport Team (CCTT) Paramedic is an alternative designation for those full time individuals that have attained and maintained certification in the body of knowledge acquired during attendance of a CCTT program. Personnel with this position designation are required to maintain specialized education and regularly participate at their licensure level in shift work, call rotations, clinical rotations, update and planning meetings, case reviews, and continuing medical education as requested or required.
